I found the agenda from the last meeting:

Red Rubber Tire Trolley
12-1-2016

Last year was a test this year let's improve it by:

- Get rid of Sandwich boards where possible, use post, red trolley sign and removeable schedule with rout in stainless steel frame and glass cover (like Long Beach)
- Speaker system that tell folks where they are and what is at the stops
- Need to redo the wood on the 2 existing trolley
- How can we cover the 2 trolleys
- What will it take/how much would it cost to rebuild our trolleys?
- Always keep our eyes out for 2 more trolleys to purchase (get a loan)

Augie,

Ok. That's great. I just wanted Joe to get acclimated to the concept.

I also want to get Jeff from Ports America involved because he is quite knowledgeable regarding the flow of pedestrian traffic on cruise days.

Before Joe does anything can we meet to make sure we are on the right track (before buying stuff and putting up the signs)? I think that the more eyes on this the better. I would like to meet again with Jonathan to discuss the trolleys and the thing we discussed a couple of months ago. OK?

Augie,

I've assigned Joe into installing permanent trolley stops and he is going to start doing the research.

Can you send me your PowerPoint presentation regarding the Cruise Terminal and the pedestrian traffic flow? We want to start an implementation plan.

Let's discuss.
